ABOUT

I'm an **MCA graduate** and aspiring software engineer. My interests span backend development with **Java and Spring Boot**, **Python**, modern full-stack web development and **Artificial Intelligence**. I enjoy turning ideas into working software with clean architecture and maintainable code. I'm looking for a Software Developer role where I can contribute, learn from experienced engineers and grow.

EXPERIENCE

Dec 2023 – Apr 2024 · 5 months

Software Development Intern (Java)

Euphoria GenX · Kolkata, West Bengal

- Completed Euphoria GenX's Skill Development and Internship Programme in Advanced Java (Certificate ID: EG_24_2102).
- Built the Online Book Store project end-to-end on Java, JDBC and MySQL: user registration and login, an admin module to add, update and delete books, search, cart and order history.
- Designed the relational schema (users, books, orders) and wrote the SQL for all CRUD operations.
- Implemented input validation and exception handling for a stable user flow.

`users` → `books` → `orders`

PROJECTS

Euphoria GenX internship · 2024

Online Book Store

Registration and login, an admin module to add, update and delete books, search, cart and order history, on a relational MySQL schema with validation and exception handling.

`Java` `JDBC` `MySQL` `HTML` `CSS` `JavaScript`

SKILLS

Programming

Java · Python · JavaScript

Backend

Spring Boot · REST APIs · JDBC

Frontend

HTML · CSS · JavaScript · React

Databases

MySQL

Tools

Git · GitHub · VS Code · IntelliJ IDEA · Linux

Currently learning

AI · Machine Learning · Docker · Cloud

EDUCATION

Master of Computer Applications

Techno India University

Jun 2022 – Aug 2024

Bachelor of Computer Applications

IMS Kolkata

Jul 2019 – Apr 2022

- Industrial Training Programme on Advanced Java
- Certificate of Internship – Online Book Store Project (Advanced Java)
